Professional Summary

IT professional with experience spanning IT support, systems administration, infrastructure operations, hospitality technology, and business technology management.

Currently transitioning into cybersecurity and infrastructure-focused roles through extensive hands-on laboratory projects involving Active Directory, Windows Server, Linux administration, Palo Alto Firewalls, Wazuh SIEM, network segmentation, and security monitoring.

Passionate about continuous learning, technical documentation, and building enterprise-style security environments to develop practical skills in systems administration, cybersecurity operations, and threat detection.

Seeking Opportunities in:

- **SOC Analyst**
- **Cybersecurity Analyst**
- **IT Support**
- **Service Desk**
- **Systems Administrator**
- **Infrastructure Support**

- Provided hardware and software troubleshooting for desktops, laptops, and peripherals
- Performed system upgrades, installations, and virus/malware removal.
- Assisted customers with configuration of home networks, Wi-Fi, and printers
- Delivered friendly, easy to understand support to non-technical users.

Teaching Assistant October 2023 – July 2025

Jesuit Social Services

- I volunteer as a teaching assistant for Be Connected at Jesuit Social Services. This program helps people improve their job-related skills. I support the instructor in teaching digital literacy.

IT Officer

New Myanmar Foundation, Maesot, Thailand October 2022 - April 2023

- Company Overview: The New Myanmar Foundation is based in Maesot, Thailand.
- Provided day-to-day IT support to NGO staff, troubleshooting hardware, software, and network issues.
- Implemented data backup systems and maintained system documentation.
- Conducted digital literacy and cybersecurity training for 25+ community leaders, activists, and NGO staff per session.

IT Manager

The Floral Breeze Hotels Group, Myanmar September 2012 - June 2017

- Led IT operations across multiple hotel properties, supporting 200+ users.
- Administered Windows Servers, Active Directory, and Microsoft 365, ensuring system uptime and smooth guest services.
- Managed vendor contracts, IT budges, and infrastructure upgrades.
- Delivered IT training to staff, including cybersecurity awareness and system use.
- Oversaw install, configuration, and troubleshooting of POS, hotel management, and booking systems.

IT Support Technician March 2008 - April 2011

Smart Net Internet Café, Yangon, Myanmar

- Delivered frontline technical support for customers on computer use, software, and internet connectivity.
- Performed regular maintenance and troubleshooting of PCs, peripherals, and networks.

- Monitored hardware/software inventory and recommended upgrades.

IT Support Technician June 2004 - January 2008

Grand Wynn Enterprises, Myanmar

- Maintained factory IT systems, including PCs, LAN, and machinery interfaces.
- Installed, updated, and configured critical software applications.
- Managed IT equipment inventory and coordinated repairs / upgrades.
